

691013

# Original Microfibre cloth, 32 x 32 cm, Blue

This Microfibre Cloth with unique cleaning properties removes up to 99.9% bacteria. The cloth works by attracting dirt and drawing it via capillary action or static electricity. Used dry, it picks up even the tiniest dust and dirt particles. Used damp, it absorbs dirt and grease through capillary action.

# Technical Data

<b>Item Number</b>	691013
<b>Nordic Swan Ecolabel</b>	Yes
<b>500 Wash Usage Guarantee</b>	Yes
<b>System Size</b>	32 x 32 cm
<b>Material</b>	80% Polyester, 20% Polyamide (100% Microfibre)
<b>Complies with (EC) 1935/2004 on food contact materials<sup>1</sup></b>	No
<b>FDA compliant raw material (CFR 21)</b>	No
<b>Meets the REACH Regulation (EC) No. 1907/2006</b>	Yes
<b>Box Quantity</b>	5 Pcs.
<b>Quantity per Pallet (80 x 120 x 200 cm)</b>	3000 Pcs
<b>Quantity Per Layer (Pallet)</b>	600 Pcs.
<b>Length</b>	315 mm
<b>Width</b>	315 mm
<b>Height</b>	2 mm
<b>Net Weight</b>	0.03 kg
<b>Weight cardboard</b>	0.01 kg
<b>Tare total</b>	0.01 kg
<b>Gross Weight</b>	0.04 kg
<b>Cubik metre</b>	0.000198 M3
<b>Max. drying temperature</b>	55 °C
<b>Max. Machinewashing Temperature</b>	95 °Celsius
<b>Gtin-13 Number</b>	5705026910139
<b>GTIN-14 Number (Box quantity)</b>	15705026910136
<b>Customs Tariff No.</b>	63071010
<b>Country of origin</b>	Indonesia

Wash the products as soon as possible after use - to reduce the risk that dirt becomes ingrained with stains and odors as result.

First wash should be done at minimum 85 ° C and separately to avoid staining

Wash cloths and mops of various types separately, to avoid contaminating each other with lint.

Pre-rinse in cold water with frequent water change, no added chemicals - in order to remove any chemicals that can have been used for cleaning and may interfere with or cause a negative impact on the fabric at higher temperatures in the washing process

Use Dry or Damp

Recommended preparation 75 % of item weight

## Vikan - ultra microfibre technology

Vikan Original cloth,  
cleaning cloth

Article	Article no.	Size	Recommended frame or holder
Green	691012	315x315 mm	
Blue	691013	315x315 mm	
Red	691014	315x315 mm	
Yellow	691016	315x315 mm	
Packed	5 pcs. in a plastic bag - 100 pcs. in a carton.		

## CLEANING

Where to use:	Cleaning of all types of surfaces with high demands on cleaning efficiency and hygienic. Perfect for regular maintenance cleaning. Avoid any contact with solvents, strong acid or alkaline products.		
How to use:	Preferably used in Vikan Vikan® system. The cloth can be used either damp or dry - wipe with the cloth folded - fold in another direction until every side has been used as face side - thereafter released in the laundry bag. Training is organized by Vikan. Contact our sales organization for further information or set up a meeting.		
Optimum moisture:	75%	to achieve best cleaning efficiency and scope	
Preparation:	Dry or damp. Be aware of the recommended optimum moisture.		
Article	Dry weight ± 5 g	ml water	Damp weight maximum
Original cloth	34	26	60
Drying speed	The controlled adding of damp results in an uniform and quick drying surface. The cleaning result is very obvious and immediate. Drops or stripes can be avoided.		

## CARE

Care label			
Care label describes the maximum temperature that should be used. Due to cost, time and environmental impact a reduced temperature should always be evaluated depending on the application.			
Recommended washing	70°C	Use detergents developed for microfiber products with a pH less than 10. Softner or biocides should not be used as they can cause fiber damage and specific in combination with high temperature. The electrostatic characteristic that is essential for the dust collecting will be reduced or lost with this type of treatment.	
Washing in specific hygiene use	72-95°C, depending on time		
Drying instruction	Max 55°C	The recommendation is made to avoid the textile to be damaged if humidity is not controlled.	
Autoclaveable	steam at 121° C 20 min	Possible to autoclave in steam if required. Other methods must be tested and approved by the originator.	
Disposal after use	Material recovery	The product is pure synthetic with high strength and can be used in many re-circulated materials depending on their specification.	
	Energy recovery	The fibers have a high energy value and can be totally burned without anything else than CO <sub>2</sub> and water.	

## Vikan - ultra microfibre technology

### COMPOSITION

Cleaning surface	80 % PES / 20 % PA. Splitted micro fiber	Uniform and dense loops of microfiber provides large contact area between the cloth and cleaning surface. The more contact the better efficiency in the cleaning. Our loops creates a large volume and helps to collect dust and dirt effecient. Fabric is provided with Vikan wicking performance which permanently protect the fibre and increase the transport inside the mop and enhance the cleaning and laundry efficiency.
------------------	--	---

### CHARACTERISTICS

Shrinkage	Less than 5% at recommended washing conditions.	
Absorbency	Fast and immediate wicking properties. Can easily keep 5x its own weight in moisture.	
Staining	No staining in dry or damp condition if recommendation is followed. Some staining can be noticed on other textiles when the higher temperature range is used but separate washing of mops and cloths that are of different construction or used for different applications are recommended.	
Eco Label	Nordic Eco label licens 5083 0008 for Micro fibre cloths and mops.	

### GUARANTEE AND PERFORMANCE

500 times wash and use guarantee in general or hygiene use. Depending on cleaning areas (type of dirt and frequency of cleaning) the guarantee must be limited - but selecting the right mop and care, the life cycle can be optimized to even higher level. Ask our experts for best choice.

Lenience	Our micro fibre construction is tested against several glossy surfaces to secure the leniency of the mops and cloths. But before use on specific sensitive surfaces check that no particles as sand or old dirt are kept in the textile. Use a CD or similar as a test surface if you are not convinced.
----------	--

### PRODUCT FEATURES AND BENEFITS

Ergonomics	Low weight - folded for better handle and utilization of the cloth surface
Efficiency	High hygiene level - efficient reduction of bacteria - no spreading out of dirt - fast drying without residual chemicals
Effective and simplicity	Easy to use - no changing of water or detergent - color coding system
Environmental impact	No chemicals - high durability - effective utilized resources in manufacturing and use

Developed and manufactured by the Vikan group for professionals.
